“Your Jazz music is so peaceful, non-violent, non-sexual and all about nature and an embodiment of calmness and wisdom. Countries like China throughout Asia are mostly chaotic in one way or another and your Jazz music would give people a peace of mind and help put everything in an orderly way.”

I am very proud of you being as a unique and solo music performer. Just like flu being widespread, I believe that not all popular things or music out there are necessary of good things; the best things always seem rare. I hope more and more people would hear your voice and be aware that not all musicians in modern time are morons, playing music of all kinds just for the sake of money and caring little for morality.

Lyn Christie said of Waters, "He is a citizen of the world" "Not afraid to be Creative, Reedman Waters is a virtuoso multi-instrumentalist and gifted composer"

The Observation Post, Frederic Seaman, New York City

"Waters was unknown to this reviewer, but his fine album, Mission made me really sit up and take notice. Greg is a musician of uncommon ability." Bronx News, Highlights in Jazz, Jack Kleinsinger

Music has universal standards that has nothing to do with the pop culture and all that goes with it! For me musical values have changed so much I do not know what music is! I am trying very hard to keep the standards and at the same time moving forward as a creative artist. Greg Henry Waters
